

Recertification II Learning Objectives

By the end of the webinar, the learner will be able to:

Webinar 1: The Foundation of Neurodevelopment Care

Objectives: 1. Recognize two phases of fetal brain development.
2. Identify three articles that highlight the impact of prematurity on the developing brain.

Webinar 2: NICU Culture: Why Change is So Difficult

Objectives 1. Name three unwritten truths about the NICU.
2. List two differences between traditional NICU culture and new NICU culture.

Webinar 3: How to Implement a Performance Improvement Project

Objectives 1. Recognize the ADKAR model as it relates to performance improvement.
2. Identify three ways to reduce resistance to change.

Webinar 4: Clinical Application of Change Management

Objectives: 1. List two components of the stress response in high risk infants.
2. Identify four ways to implement the Neuroprotective Core Measures for Family-Centered Developmental Care in the NICU.

Webinar 5: Environment of Care

Objectives: 1. List three environmental modifications that can be made in the NICU to improve infant neurodevelopmental outcomes.
2. Recognize three research articles that highlight non-pharmacological approaches to reduce pain in the NICU.

Webinar 6: Infant-Parent Relationship

Objectives: 1. Name three reasons fostering the infant-parent relationship improves high risk infant outcomes.
2. Identify three research articles that discuss the impact of the infant-parent relationship in the NICU.
